EDUCATION

Information Technology

West Yangon Technological University
2024 - present

Technological University Meiktila
2018 - 2024

OBJECTIVE

To obtain a web developer position where I can apply my technical and problem-solving skills to develop user-centric, scalable applications

PROFILE

Junior Web Developer with a strong foundation in both front-end and back-end development. Proficient in HTML, CSS, JavaScript, Bootstrap, PHP, and Laravel, with hands-on experience creating web applications. Comfortable building dynamic, responsive websites and integrating back-end functionality for features like user authentication and data management. Also knowledgeable in Python and Java, continuously improving through IT studies. Focused on delivering clean, efficient code and ensuring a great user experience across all platforms.

EXPERIENCE

"No work experience yet. Willing to learn and take on responsibilities."

VIRTUAL CALCULATOR

Fifth Year - Present

- Creating a gesture-controlled virtual calculator using Python and OpenCV
- Implementing real-time gesture recognition for performing calculations

ONLINE SHOPPING SYSTEM

Fourth Year - 2024

- Developed a fully functional online shopping system with user registration, product listing, and shopping cart using php
- Built an admin site for managing products and orders
- Applied Bootstrap for a responsive, mobile-friendly design

SOUTHEAST ASIAN FOOD REVIEW WEBSITE

Second Year - 2022

- Designed and developed a responsive website to review and showcase various Southeast Asian cuisines
- Utilized HTML, CSS, and JavaScript to create interactive and user-friendly pages
